## GRIM REAPER GETS MOST DURING MARCH

[UNITED PRESS LEASED WIRE.] Washington, Jan. 12.—The grim reaper's greatest harvest is during the month of March, according to statistics just made public by the Department of Commerce.

In a registration area, including about 58 per cent of this country's population, 70,237 people in the same departed this life during the windy month. Exactly 805,412 people in the same area died during the year, and of this number 70,237 died in March.

The time of greatest health appears to be the merry month of June, during which period of brides and blossoms only 60,827 people succumbed.

The most frequent causes of death, it was reported, was tuberculosis of the lungs. Violent deaths claimed 48,006 persons during the year. The majority

of them occurred in the summer months July being the heaviest toll.

One strange thing brought out by the report is that the greatest number of suicides occurred during the month having the lowest death rate, June, when 803 persons took their own lives.

It is thought by a great many that the many marriages of this month brings about this unwanted figure, the despondent and unsuccessful swains swell the total to no inconsiderable degree.

## WOMEN'S RIGHTS COSTLY ACCORDING TO PLIMPTON

That the enfranchisement of women and the organization of the Progressive party will be expensive to the state through the printing of election matter is the announcement made by Secretary Plimpton, of the printing board. He said that three and one-half tons of paper was necessary for tally sheets alone at the coming primary, whereas heretofore two and one-half tons had been sufficient.

The printing board has settled with Mrs. W. S. Dunaway, widow of the late state printer, for work done after his death. Mrs. Dunaway had the pamphlets for the recent referendum election printed by a firm in Portland, and, in declining to accept a profit on it, saved the state about \$800. Under the old system the state printer made large profits on certain classes of matter, and came out about even or lost money on others. The profits on election pamphlets were large.

## COURTS MAY HAVE TO DECIDE WOMEN'S FEES

[UNITED PRESS LEASED WIRE.] Redwood City, Cal., Jan. 12.—Indications are that the courts will have to decide the validity of the claims filed by the eleven women members of the last San Mateo county grand jury for \$3 daily each during their term of service, and mileage covering their trips to and from the county seat.

That they will win their case was the general opinion of lawyers here, but for some reason Auditor W. H. Underhill has declined to turn over their fees, interposing various technical objections as often as their bills were presented. The women's version is that Underhill was angered because they

compelled him to make changes in his office management which cost him considerable money and more trouble.

"The women on the San Mateo county grand jury," said Expert Accountant L. Q. Haven, who for years has seen service with grand juries here and elsewhere throughout California, "have made it the best inquisitorial body I have ever seen. They are absolutely fair, and fearless, knowing no politics and caring nothing for private interests except to give everyone justice."

"They have made a most thorough investigation of everything that needed investigating, and have swept county affairs clean."

"Does the razor pull, sir?" asked the barber.

"No," replied the victim as he squirmed in his chair, "but the blood running down my neck kind of tickles me."—Cincinnati Enquirer.

**SUITED HER, ANYWAY.**

"I find the professor's statistics stupid."

"I don't. He told me there were 400 billion people in the world, and that I was the prettiest girl in the lot."—Raleigh News.

**OUCH!**

"Does the razor pull, sir?" asked the barber.

"No," replied the victim as he squirmed in his chair, "but the blood running down my neck kind of tickles me."—Cincinnati Enquirer.
